Interests: I love being a teacher in a Catholic school where I can teach academic subjects enriched with values and faith. I appreciate working with families who have chosen to send their children to a Catholic School

Music is a passion of mine that feels as necessary as breathing. I volunteer at the church to lead the teen youth music program at HSCC. Working with students who are enthusiastic and passionate about music feeds my love of music.

My husband and I have 3 beautiful daughters who are involved in music, dance, art, and sports. We enjoy being together; creating music, cooking, creating art, participating in sports, sharing with friends, and traveling together as a family.
