Interests:

Middle school students inhabit a magical, mystical place. If someone asked me when I first went into teaching if I would ever be interested in working with middle school, I would have said, "I don't think so." But, I must say, I find this age group to be challenging and rewarding. They are very capable and I love having the opportunity to guide their wandering minds in the ways of truth and light!

In my personal life, my wonderful husband of more than 30 years and I are empty-nesters! Our three amazing adult children continue to bring joy to our lives from afar! I have two pampered, 4-legged exercise companions. They help me train for running and cross-country ski races. When I'm not moving I love to cook and read.
