**Marie Smith**  
Special Projects Coordinator  
At HSCS since 2010

**Education** BBA in Management & Organization from Idaho State University

**Experience** Intermountain Healthcare from 1978 to 2006 (retired) directing and managing a variety of departments primarily in Patient Accounts, Physician Clinics, and Compliance.

**Interests** My grandchildren (and their parents) are my most passionate interest. I am blessed to live and work where I can be a part of their growing up including sending two generations to this remarkable school. I love the concerts, dance recitals, hearing about their school days and just about every thing that surrounds their lives. I am also blessed to be a charter member of a Bible study group comprised of women who have been meeting together in our homes since 1990. I am a member of P.E.O. Chapter K where I am a past president. My retired Marine husband of 45 years, Fred, and I love to travel. I am an avid reader, try to knit and love to sew. We are very amateur golfers and have a love of the southwest —especially New Mexico.
